Mind Webs: Electricity and Magnets Anna Claybourne

Mind webs, also known as spidergrams or mind maps, are great for learning about the science of electricity and magnetism.

In this book you can find out about sources of electricity, circuit diagrams, measuring electricity, electronics, how magnetic poles and fields work, about natural magnets, types of magnet and how to make a magnet.

With more than 200 illustrations showing how electricity and magnetism works, this series is perfect for visual learners.

The Mind Webs series are great revision tools for students at Key Stage 2, and are also excellent for gaining a clearer understanding of how science works.
