The Panasonic G7 Menu System Simplified David Thorpe

What's the difference between Self Timer and Shutter Delay? Between AFS and AFF? What is Post Focus? The menu system of the Panasonic G7 is one of the best presented and most logically laid out of any digital camera. But with 32 pages containing 800 items the manual for the G7 is labyrinthine. Many photographers faced with this, one of the most sophisticated digital cameras ever produced with its seemingly endless array of options, never fully get to grips with it. That needn't be you. This book offers a blow by blow explanation of the menu items, what they do and why you might want to utilize them, in non-technical language. The last chapter goes through every menu item in order and tells you how the author has his camera set up. You can simply copy these settings to your G7 and within a few minutes be out and about taking pictures with confidence.
