Divine Proportion Workbook Jain 108

Jain 108 of Australia has distilled the last 30 years of his research towards the re-introduction of Sacred Geometry back into the public school curriculum. 100 years ago, topics like the 5 Platonic Solids, the Fibonacci Sequence and the Golden Mean Spiral were highlights of a national curriculum handed down to us for over 2,000 years since the Greek empire. To our detriment, heads of government made the decision, 100 years ago, to remove this legacy from the national curriculum. Since then, students world-wide have shut down from learning mathematics due to its current dry factory-style content. Jain Mathemagics is merely putting back into the curriculum that which was already there! Jain succeeds in communicating to Youth in a highly visual Language permitting the Students to understand the in-depth meanings of concepts like: Fractality, Infinite Series, Scale Invariancy etc.
