"This book aims to facilitate a learning process suitable for children. Letters and notes are big enough for children to read, the language is easy to understand in vocabulary and syntax, and numerous color photographs help to explain difficult musical aspects. Furthermore, exercises for improvising enable pupils to be creative with music, there is a good mixture of technical exercises and songs, as well as a diversified layout with funny illustrations. This book enables the pupil to use the precious time for practice efficiently. It is suitable for beginners without musical knowledge. The accompanying CD provides backup tracks which accompany many of the songs in the book. The examples are recorded both with the saxophone part and without."
