**Twenty Thousand Leagues under the Sea** Jules Verne

**The classic tale of the wonders and terrors lurking in the deep**

A monster has been wreaking havoc in the waters of the Atlantic Ocean. The US government has sent forth a team featuring Pierre Aronnax, a French marine biologist; Ned Land, a Canadian harpoonist; and Aronnax's servant Conseil to take care of the problem. Their mission: Kill the beast. But what they find is the submarine *Nautilus* and its helmsman, the fearsome Captain Nemo.

Onboard Nemo's ship, Aronnax has a vision of ocean life that he never believed possible. In Nemo he sees a man who is entirely liberated yet completely shackled to his past—a scientist with the power to go anywhere in the world but held back by fierce anger. Written in 1870, *Twenty Thousand Leagues under the Sea* was one of the earliest novels of science fiction literature and has remained a classic of the genre over a century later.

This ebook has been professionally proofread to ensure accuracy and readability on all devices.
