CCH's Federal Income Tax: Code and Regulations--Selected Sections provides a selection of the Internal Revenue Code and Treasury Regulations pertaining to income tax. This popular volume reflects the collective judgment of seven distinguished tax teachers and provides an effective mix of official materials for individual and business undergraduate and graduate tax courses offered in law and business schools. It provides in one volume, the provisions most commonly addressed in income tax courses. The book's highly readable 7-1/2" x 10" oversized page format make it easier to read for both professor and student. The book is an attractive alternative to the full text of the multi-volume Internal Revenue Code and Income Tax Regulations. Special features of this volume include: - Convenient shortcut table for computation of corporation income taxes - All Code sections that are indexed for inflation are flagged and cross-referenced to material providing the CPI-adjusted numbers for 2014 - Many Regulations sections that have not been updated by the Treasury to reflect later legislation are flagged - Every Code section page carries a footer indicating the specific Code subsection carried on the page--for example, Sec. 271(e) - Every Regulations section page carries a footer indicating the specific Regulation subparagraph carried on the page--for example, Reg. Sec. 1.706-1(c)(3) - Includes CD of entire contents of the book The 2015-2016 Edition is completely revised to reflect all legislation and regulations enacted or adopted on or before June 1, 2015 and other significant developments that took place throughout the year. It is edited by Martin B. Dickinson, the Robert A. Schroeder Professor of Law at the University of Kansas, and it reflects the tradition of CCH accuracy and completeness. Copies will be published and shipped to arrive at school bookstores and adopters by early August 2015.
