Statistical Mechanics (North-Holland Personal Library) R. Kubo, H. Ichimura, T. Usui, N. Hashitsume

This book provides a series of concise lectures on the fundamental theories of statistical mechanics, carefully chosen examples and a number of problems with complete solutions.

Modern physics has opened the way for a thorough examination of infra-structure of nature and understanding of the properties of matter from an atomistic point of view. Statistical mechanics is an essential bridge between the laws of nature on a microscopic scale and the macroscopic behaviour of matter. A good training in statistical mechanics thus provides a basis for modern physics and is indispensable to any student in physics, chemistry, biophysics and engineering sciences who wishes to work in these rapidly developing scientific and technological fields.

The collection of examples and problems is comprehensive. The problems are grouped in order of increasing difficulty.

From reader reviews:

Patrick Lyon:

The book Statistical Mechanics (North-Holland Personal Library) has a lot details on it. So when you make sure to read this book you can get a lot of advantage. The book was authored by the very famous author. The author makes some research before write this book. This kind of book very easy to read you can get the point easily after scanning this book.

James Robinson:

Can you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Aim to pick one book that you just dont know the inside because don't determine book by its handle may doesn't work is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appear likes. Maybe you answer can be Statistical Mechanics (North-Holland Personal Library) why because the wonderful cover that make you consider concerning the content will not disappoint a person. The inside or content is definitely fantastic as the outside or cover. Your reading sixth sense will directly assist you to pick up this book.

Marvin Boyer:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just tiny students that has reading's heart or real their hobby. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring and also can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Statistical Mechanics (North-Holland Personal Library) can make you sense more interested to read.

Marni Johnson:

Reserve is one of source of understanding. We can add our information from it. Not only for students but also native or citizen have to have book to know the change information of year for you to year. As we know those textbooks have many advantages. Beside we all add our knowledge, can bring us to around the world. Through the book Statistical Mechanics (North-Holland Personal Library) we can have more advantage. Don't you to be creative people? To get creative person must prefer to read a book. Just choose the best book that suited with your aim. Don't possibly be doubt to change your life with this book Statistical Mechanics (North-Holland Personal Library). You can more desirable than now.
