Superhuman Nature Brandon Overall

Superhuman Nature is Brandon Overall's first novel. It was written and published during his first deployment to Afghanistan as a 2nd Lieutenant in late 2013. Neil Hitchens was a senior ROTC Cadet in college. He was just weeks away from graduating and becoming an Officer in the United States Army, until a strange dream set off a chain of events that would twist his life into something he could have never prepared for. In the days following his dream, several strange happenings occurred that he began to suspect were the result of his own actions. Before long, he discovered that he had the ability to control the world around him with his mind. What started out as an unpredictable ability quickly evolved into an extraordinary power that had the capacity to change the world. It didn't take long for the government to find out what Neil could do. They knew having such limitless potential on the side of the US Military could give them limitless political influence, and they would stop at nothing to get Neil to do their bidding. They would find out what happens when you back a dangerous animal into a corner. Neil spent his whole life believing he would amount to greatness, but he never expected how greatness could corrupt even the most innocent of minds.
