## The Routledge Circus Studies Reader

The Routledge Circus Studies Reader offers an absorbing critical introduction to this diverse and emerging field. It brings together the work of over 30 scholars in this discipline, including Janet Davis, Helen Stoddart and Peta Tait, to highlight and address the field's key historical, critical and theoretical issues. It is organised into three accessible sections, **Perspectives**, **Precedents** and **Presents**, which approach historical aspects, current issues, and the future of circus performance.

The chapters, grouped together into 13 theme-based sub-sections, provide a clear entry point into the field and emphasise the diversity of approaches available to students and scholars of circus studies. Classic accounts of performance, including pieces by Philippe Petit and Friedrich Nietzsche, are included alongside more recent scholarship in the field.

Edited by two scholars whose work is strongly connected to the dynamic world of performance, The Routledge Circus Studies Reader is an essential teaching and study resource for the emerging discipline of circus studies. It also provides a stimulating introduction to the field for lovers of circus.
