Freedomnomics: Why the Free Market Works and Freaky Theories Don't

John R. Lott, Jr.

Freedomnomics: Why the Free Market Works and Freaky Theories Don't John R. Lott, Jr.

As the blockbuster bestseller *Freakonomics* demonstrated, economics can explain everything--from why people behave the way they do to how governments and businesses organize themselves. But are the basic assumptions and conclusions in *Freakonomics* true? Does the free market usually lead to unintended and negative consequences? Quite the opposite, says John Lott, who holds a Ph.D. in economics. In fact, says Lott, a wide range of fascinating and peculiar case studies prove the simple adage that if something is more costly, people will do less of it. And, in a refutation of *Freakonomics*' most controversial idea, Lott shows why legalized abortion leads to family breakdown, which leads to more crime.
