How do lions live their daily lives? What do they eat? How do they rear their young? This book offers a close-up look at the lion; at its senses, its life cycle and its habitat.

Jane Goodall, one of the world's foremost naturalists, presents a series of books that explore the wonders of our planet's wildlife. Geared for young readers, each book adheres to Dr. Goodall's principles of learning about animals by observing the way they live.
