Mr. Robert L. Kelly

The \$30 Trillion Heist: Scene Of The Crime? (The Federal Reserve Trilogy) (Volume 1) Mr. Robert L. Kelly

Christian author, Robert L. Kelly, trumpets the virtual horn of Gabriel in The Federal Reserve Trilogy. The first two books, The \$30 Trillion Heist---Scene Of The Crime? and The \$30 Trillion Heist---Follow The Money!, are break-through documentaries and examples of investigative journalism, at its finest. In them, Mr. Kelly issues a jarring and scathing review of the secret and unauthorized actions by the Federal Reserve System, while uncovering what may be the greatest crime of all time. His meticulous work tells the story of a stunning and utterly covert operation by the Fed and the elite. Together, they plotted and completed an incredible secret heist totaling nearly \$30 Trillion. This money was absconded directly from the American taxpayer and was taken without the consent, or knowledge, of Congress. What was the heist's purpose? After Congress refused to approve any more bailout money, The Fed and the banks took it upon themselves to surreptitiously reimburse the banks, and the elite, for losses they experienced during the credit crisis. After assembling the evidence, The \$30 Trillion Heist asks the grave and important question, everyone in Congress is afraid to know the answer to-- "Did The Federal Reserve, And Its Co-Conspirators, Commit Treason Against The United States Of America?" In a definitive work on the Federal Reserve, the books of The Federal Reserve Trilogy read like detective novels. Together, shocking details of the Fed's diabolical actions, as well as those of a large number of co-conspirators, are unveiled. Mr. Kelly's detective work reveals how the Fed and the Federal Reserve Banks, which are privately owned by the commercial banks and their elite owners, hide their activities from the American public and the U.S. Congress. This allows them to continue pillaging ungodly amounts of wealth from taxpayers. The compelling and overwhelming evidence of the elites' attempt to wrest financial control from the governed, for the benefit of a small group of powerful, unelected people, is must reading for everyone. Mr. Kelly artfully weaves together a tapestry of complex information, and transforms it into the simple-to-understand pieces of a solved jigsaw puzzle. Scene Of The Crime? lucidly "connects the dots" and leaves little doubt the Fed's secret actions solely benefit the banks and the elite, while leaving dozens of American and European cities on the verge of economic chaos and infernal social collapse. Scene Of The Crime? also coins, for the first time, the term "Assflation™." It is defined as the underhanded funneling of money from taxpayers into the preferred asset classes of the super-rich---a capital scheme used to spike markets, and enrich the elite. It also comes at the direct expense of 80% of the population. Mr. Kelly makes it easy to understand why 50 Million people are on food stamps, true unemployment is soaring at over 30%, and salaries for most are decreasing, while the cost of living rises on nearly every front. In the last book of the trilogy, D'Apocalypse™ Now! issues with blistering clarity, a foreboding warning of a Doomsday Cycle which lies dead ahead. It will be directly caused by the greed and avarice of the banks, the Federal Reserve and the elite. It is called the "D'Apocalypse™" and entails a massive debt and derivatives collapse, which will spare no one who is unprepared. The charts on the Dow, Gold and Mr. Kelly's model portfolios are astounding and will help you---both before, and after, D'Apocalypse™ strikes! Investors will love seeing two unique \$10,000,000 model portfolios. One is up 14% and the other is up 17%, just six months after D'Apocalypse™ Now! was sent out for publisher's "first proof" printing. Finally, readers should know The Federal Reserve Trilogy was written with the hope of awakening a sleeping Congress and an uninformed American public---before it is too late! All bankers should head for the hills---YOUR SECRET IS NOW OUT!
