Ocean Law and Policy: Twenty Years of Development Under the Unclos Regime

In the years since 1994, when the UN Convention on the Law of the Sea (UNCLOS) entered into force, the ocean law regime has been profoundly affected by an interplay of new forces in global ocean affairs.

Numbered among them are innovations in technology and science, the emergence of intensified piracy and other challenges to maritime security, national, and regional programs. In *Ocean Law and Policy: Twenty Years of Development under the UNCLOS Regime*, experts from fourteen countries present nineteen papers that provide insightful analyses of these wide-ranging issues that form the emerging new context of UNCLOS as a keystone to a working regime system. Accessible as well as authoritative, this volume offers to general readers as well as academics, policy officials, and legal experts a set of important analyses and provocative insights, forming a major contribution to the literature of ocean studies.
