Pi For Kids

Brainstorm: Left Brain Training: Gifted and Talented Training for Ages 3-6 Pi For Kids

Left Brain Training consists of 60 pages of specific challenging activities with colorful and appealing pictures for children with ages from 3 to 6. The problems in this book are designed to increase their memory, stimulate their observation skills, practice critical thinking, and trigger imagination. The learning process of every child can be slow, hard and sometimes painstaking. There is no straightforward set of instructions or measurements to ensure that your child will learn the right way. Parents have the responsibility of discovering their child's best learning process and providing adequate resources for their child. The BrainStorm Series is dedicated to giving parents the necessary tools to boost their children's intellectual strengths and interests and to show children the joys of learning at an early stage.
