MIT Lincoln Laboratory: Technology in Support of National Security

MIT Lincoln Laboratory: Technology in Support of National Security

MIT Lincoln Laboratory: Technology in Support of National Security
Since Lincoln Laboratory's establishment in 1951, the national security challenges have evolved from defending against strategic confrontations to addressing adversaries with poorly defined borders and ideologies. The core competencies required to provided technologies to respond to this changing reality-systems analysis, advanced electronic device technology, rapid prototyping, field testing, and ultimately effective transition to the user community-have become hallmarks of the Laboratory's work and will ensure its continued service to the nation.
