Five months after traveling to a post-apocalyptic future where collectives reign supreme and individuals have been hunted to the verge of extinction, Maggie Harper was returned to her own time until the threat to her life could be neutralized. She thought Marcus and the others would return for her within a few weeks, and now she's beginning to worry. When travelers from the future finally show up to collect her, it's not who she expected. With the return of her memories, she wants more than ever to see Marcus again, but a snake-like woman whose abilities are a perfect match for Maggie's, an injured Traveler, and decades of civil unrest to wade through all stand in the way of their reunion. Meanwhile, Marcus and Karl traipse through the countryside, trying to neutralize Colin, who's promised to brutalize and murder Maggie if he can get his hands on her. When a collective woman is left for dead, Marcus heals her, hoping she'll be the key to killing Colin and bringing Maggie back. But she may prove as much a hindrance as a help. The team struggles to get their bearings, but things happen faster than they know. The collectives are coalescing, power is shifting, and the one called B is putting sinister plans into action. If the team can't reunite and get a handle on the situation, their freedom and individuality—perhaps their very identity—will be ripped away before they can catch their breath.
