... one of the most important books for American teachers. . . . If you teach, read it on one of the days when you want to quit. You'll either keep teaching or quit with a clearer head. *Democratic Schools*

Highly recommended. . . . Written in a rather interesting manner--primarily as a conversation--this book serves nicely as an informal yet rigorous treatment of critical pedagogy. There is a satisfactory blend of theoretical investigation and practical personal anecdote. . . . The text is well researched. *Choice*
