#### **Sylvia Alexander:**

In this age globalization it is important to someone to find information. The information will make anyone to understand the condition of the world. The health of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. Typically the book that recommended to you is Applications of Data Mining to Electronic Commerce this guide consist a lot of the information from the condition of this world now. This kind of book was represented how does the world has grown up. The words styles that writer require to explain it is easy to understand. The actual writer made some exploration when he makes this book. That is why this book ideal all of you.

#### **Henry Jones:**

As a student exactly feel bored to reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Applications of Data Mining to Electronic Commerce can make you experience more interested to read.
