Critical Sociology Steven M. Buechler

Critical Sociology is a thoroughly revised, updated, and sophisticated introduction to the sociological perspective as a critical lens on society. Much has happened since the first edition: the Great Recession, the Obama presidency, the burgeoning role of social media, and recent global social movements such as the Tea Party, Occupy Wall Street, and the Arab Spring. In this second edition, Buechler discusses the changing relationship between social movements and democracy. The book contains chapters on how to think sociologically; an overview of scientific, humanistic, and critical schools of sociology; and a detailed exposition of the critical tradition.
