Imagining Ethiopia: Struggles for History and Identity in the Horn of Africa John Sorenson

In *Imagining Ethiopia*, Sorenson examines Western mass media images of Ethiopia, placing them in the context of a larger discourse on the Third World. Sorenson shows how our image of Ethiopia has been developed by reporters and photographers who blamed the famine on African backwardness and ignored its historical and political causes, which include a colonial history, militarization, and the circumstances of Africa's integration into the world market.
